LIFE *is about* MOMENTS

*L*ife is messy, but AirStep
by Congoleum is easy to
maintain and live with so you
can get back to enjoying
life's moments.

Live the AirStep Life.

On Trend

Our style experts meticulously seek out cutting edge trends then distill and adapt them to create the most stylish flexible flooring available.

Practical

A fully-sealed floor is clean floor. Many flooring choices have seams that allow water, dirt and bacteria to seep under the floor causing it to show wear and harbor germs but AirStep is a single solid sheet making a practically impermeable surface that installs over many varied subfloors.

Easy to Live With

AirStep contains Scotchgard Protector™ that repels dirt and mess for easy cleanability. Silver particles infused into the floor provide natural antibacterial protection.

Innovative

AirStep flexible floors are manufactured from domestically-sourced materials in the USA under stringent quality controls. Our products exceed low-emission standards for better indoor air quality as certified by Floor Score.

Designing Your Space

Designing a room doesn't have to be hard; first find color inspiration in your clothes closet or jewelry box. Create an inspiration binder or board before you head to the stores, include room measurements and your color palette. Start with the biggest surfaces of a room such as the flooring, which will set the tone for the space.

Congo Tip: Warm up a modern room with a rustic wood look floor and natural accessories to balance the modern elements.

AirStep Advantage®

Our most fashion-forward,
luxurious product

- Warmest and most cushioned choice underfoot
- Extra thick wear layer resists rips, tears and gouging
- UltraTec® backing offers installation options and masks subfloor imperfections

Bolder, Boulder

Take in the thin mountain air with open lungs, stretching roadside at the Colorado border up to the pale sun. Soon enough the road is carved out from cliffs. You press your temple against the rubbery border of the window in the door, let the rumble of wheel to earth rattle your head.

the ART of BALANCE

Hi, I'm Meg, a marketing manager here at Congoleum. I'm a busy working mom and at our house, rooms are multipurpose and the kitchen is where all the action happens! Meals are prepared and eaten, homework is done, art projects are completed and games are played. I use it as a home office, even impromptu baths are given in the kitchen sink!

My point is; our kitchen gets lots of traffic but I couldn't be happier with my AirStep floor. Food spills, muddy footprints, paint and even nail polish don't slow this floor down. I just wipe it up with a wet paper towel and it always looks great. I like the added bonus of Scotchgard™ because I don't have to worry about stains. Antibacterial silver in the wear layer gives me peace of mind; just in case a few "floor-snacks" are eaten. I've also come to love that it's one-single waterproof sheet because there are no seams for water or dirt to hide in.

My life is about balance and AirStep helps me achieve it because I don't have to worry about my floors; I can save my time and energy for what matters most, cuddle-time!

*nail polish spill,
no stain!*

Congo Tip: When in doubt, add a plant! Plants and living things add life to a room. Try succulents or fresh flowers if you don't have a green thumb.

AirStep Plus[®]

Value-priced flexible flooring that offers classic beauty and durability.

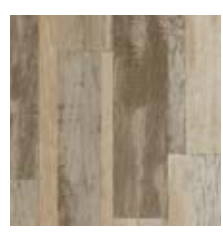

- Durable wear layer
- UltraTec[®] backing for easy installation
